ACA Stroke of Achievement Award 2006

Presented by Sam Fowlkes, Chairman of the Safety, Instruction and Education Council:

"This Paddle America Club makes membership with the ACA not just a priority, but a requirement. In addition to their dedication to the association, NACK is a firm believer in quality instruction, high safety standards, outreach, and constant, consistent promotion of the ACA and its ideals. They train all members and leaders to meet and exceed ACA Guidelines for safety and require strict adherence to safety rules on club paddles. In 2006 they worked 8 venues handing out ACA literature and displaying the ACA Banner."
